SPECIAL PROGRAMS (5:15-6:00 PM)

Special Programs are consistent, progressive activities meant to build on each week’s learning objectives. In the past, members have been able to choose which program they want to participate in, but now we have set programming for each pod to ensure safety.

Some of these programs require separate parent or guardian permission and may require regular and consistent attendance to be able to participate. Please speak with your child to see if they are interested in the program and turn in the registration page (last page) as soon as possible. Descriptions are listed on the next page. Spots will be given on a first come, first served basis, with priority given to registered members.

Participants in the program will be required to socially distance and attendance will be taken for contact tracing in case of a positive case of COVID-19. Members must be able to safely participate in the program concerning COVID-19 procedures, without exception.
